SC-135

VALUE COUNTER

Flexibility is vital in today's world. As cash processing demands change and technology evolves, being able to scale operations up or down and take advantage of new opportunities helps organizations stay productive and cost effective.

Designed compact and modular, SC-135 is ideal for rapid cash processing where space is limited. It has a standard throughput of 1,000 banknotes per minute or 60,000 notes per hour with a large feeder capacity of 500 notes and continuous feeding for efficiency.

FEATURES

- 4.3 inch Color TFT Touch Screen and full Graphic UI Notification
- Built in Printer for SN printing and report printing
- Rechargeable Battery (Optional)
- Full MG Sensor Covered
- Static Electricity Erase Design

- Serial Number Reading
- Auto Currency Detection
- 40 Currencies

- 110+ Kinds Of Currency Database
- Mix Value Counting
- Silence Counting Design: About 70db

TECHNICAL SPECIFICATIONS

SC-135	Single pocket mix value counting machine
Feeding System	Roller Friction System
Display Screen	4.3 inch TFT Touch Screen with Full Graphic UI Notification
Counterfeit Detection	Dual CIS, Magnetic, Infrared, Ultraviolet
Currency	40 Multiple Currencies
Error Detection	Double Note Detection, Half Note Detection, Chain Note Detection, Serial numbers reading and printing
Available Detection	Image Detection, Double Detection, IR, Chain Notes Detection
Denomination Detection	Yes
Add More	Allows Cumulative Counts
Counting Speed	800/1000 notes/min
Hopper Capacity	500 pcs
Machine Dimensions	266mm x 250mm x239mm
Stacker Capacity	200 pcs
Thickness of Currencies	0.08-0.15mm
Hopper Size	50mmx110mm/90mmx180mm
Power Supply	100=240V, 50/60mm
Power Consumption	≤ 70W
Net Weight	5.2 kg
Package Weight	7.0 kg
Options	External Display / Rechargeable Battery / Built-in Printer
